

Getting Started with

dwellingLIVE

dwellingLIVE is the Internet communications system Rosedale uses which enables residents to notify the gate of visitors and vendors.

It can be accessed in several different ways:

- Using an online browser with your computer or tablet
- Using your iPhone
- Using your Android Smartphone

Here is how to get started.

1. Register to get a username and password for *dwellingLIVE* by contacting the Rosedale Access Committee at communityaccess@rosedalehoa.com.
2. Set up your account. It may be easier to do this on your computer or tablet. Resources to help you do this are:
 - The handout in your Rosedale Homeowner's Welcome Package
 - Our website (www.rosedalemasterhoa.com)
Go to the Gate Access and Safety tab, then scroll down to *dwellingLIVE* to Notify the Gate of Visitors.
3. Install the *dwellingLIVE* app on your iPhone or Android Smartphone. Then you can enter visitors to the app while you are on the go. These instructions can be found on the website.

You are required to notify the gatehouse of visitors and vendors electronically using *dwellingLIVE* rather than calling them. If this is a problem, contact the Community Access Committee.
